How to measure:

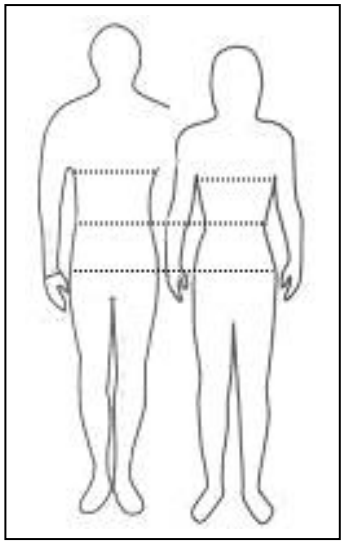
Keep tape measure level and avoid pulling tightly; do not hold your breath. Measure over any clothing you expect to wear under the garment. For pants, select size based on the larger of the waist and hip measurements. For jacket, select size based on the larger of the chest and hip measurements. If measurements fall between sizes, select the larger size.

To measure the Chest:

With arms down, measure around the fullest part of the chest, under arms and across shoulder blades.

To measure the Waist:

Bend to one side to find the natural crease of your waist; Measure at natural waist.

To measure the Hip:


With heels together, measure around the fullest part of the hips: this is usually 7 to 9 inches from the natural waist.
